

I am against the FCC's proposal referred to as LPFM

This will interrupt service to a radio station I and my family listen to. The radio station is KLOVE and it brings encouragement to my family as a great public service.

We are made aware of public service announcements in the local Christian community. The program is clean and family oriented. There is no other radio station like it in Tucson with the content it provides.

2) The effect on the community would be a travesty if LPFM were to displace the programming to KLOVE. The genre of music reaches the an audience like my teenage daughter. Without KLOVE she would turn to radio stations with poor content and "shock jocks"

3) I believe KLOVE offers a premium to a community with a message of HOPE and clean broadcasting not found anywhere else.

No other radio station provide the morally good content, awesome teen oriented music content, public outreach messages etc. etc that this station offers.

Please reconsider this issue and vote against the LPFM service being looked at now by your organization.

Sincerely Steven Thomas
